

## THE MAIZE TRUST

### AGRICULTURAL STUDY FIELDS FOR WHICH BURSARIES WILL BE CONSIDERED

The specific study fields that are required and where there is a shortage of students are as stated below but are in no particular order of preference:

- Plant breeding
- Plant physiology
- Biometry
- Agronomy (particularly important)**
- Weed science
- Soil science
- Soil microbiology
- Food sciences (relevant to the crop industry)
- Plant entomology
- Plant nematology
- Plant pathology
- Molecular biology
- Plant biochemistry
- Agricultural economics
- Agricultural engineering
- Livestock sciences
- Pasture sciences
- Agricultural meteorology
